Johnny Outhathonglid

Systems Administrator

I am a passionate IT professional specializing in troubleshooting, system administration, and DevOps. Skilled in networking, programming, and problem-solving, with a continuous drive for learning and professional growth. Outside of work, I enjoy playing guitar and football, which help maintain a balanced and creative lifestyle.

EDUCATION

- **ROMEO ENGLISH ACADEMY**
  English for profession
  2018 - 2020

- **National University of Laos**
  Bachelor of Electronic engineering
  2015 - 2019

CERTIFICATIONS

- **VMware HCI Core Fast Track (vSphere8_vSAN8 OSA_ESA)**
  November 2023 (Thailand)

Work Experience

SB Lab 856 Co., Ltd *(2020 – Present)*
Consultant

- Conduct software functionality testing, product installation, performance evaluation, and usability testing.
- Ensure system efficiency and reliability by analyzing system performance and load balancing.

S-Tech Development Co., Ltd *(2019 – Present)*
Systems Administrators | DevOps *(2023 – 2025)*

- Manage system administration tasks while supporting project management responsibilities.
- Lead a team to test and implement new application updates efficiently.
- Oversee server hardware installations, OS deployments, and Windows Server & Active Directory administration.
- Implement backup solutions using industry-standard software to ensure data security and recovery.
- Configure SSL certificates and manage load balancing setups. Develop and execute maintenance plans daily, weekly, and monthly.
- Handle end-to-end ICT setup, including hardware installation, software deployment, and system integration.
- Plan, deploy, and manage VMware HCI Core environments, including high-availability (HA) configurations, container integration, and firewall management.

- ☑ **The Course in Mobile Data Collection and Visualization.**
  May 2024

- ☑ **FortiGate Firewall Basic and Administrator**
  February 2025 (Thailand)

- ☑ **Advance FortiGate Firewall**
  February 2025 (Thailand)

- ☑ **IPv6 - Security Turtorail**
  April 2025 (Lao PDR)

SKILLS

☑ Software & Programming:

Microsoft Office Suite

80%

Adobe Photo Shop

35%

Microsoft SQL Server

25%

HTML, CSS, PHP

40%

Node JS, Express and React

65%

☑ Technical Expertise:

Windows Server & Active Directory

40%

Linux Administration

82%
VMware HCI Core & Virtualization

80%
Engineer *(2022 – 2023)*

- Installed, configured, and managed open-source and licensed software while training teams.
- Implemented antivirus solutions (Malwarebytes Cloud Console, Kaspersky, Bitdefender).
- Nutanix HCI administration, including virtualization and cloud management.
- Worked with Docker for application containerization and server management.
- Installed and managed load balancing clusters for web servers and databases.

Junior Engineer *(2020 – 2022)*

- Led helpdesk support and managed ticket-based issue resolution.
- Gained expertise in Linux and Windows command-line operations for system customization.
- Studied networking principles and configured switches and basic infrastructure.

Internship & Technical Support *(2019 – 2020)*

- Performed software functionality and performance testing.
- Evaluated system load handling for web and mobile applications.

Trainings & Workshops

VMware HCI Core Fast Track Certification

(November 2023, Thailand)
- Covered implementation, installation, configuration, and management of VMware HCI Core, including vSphere 8 and vSAN 8.

FortiGate Firewall Basic & Administrator

(February 2025, Thailand)
- Hands-on training on FortiGate firewall administration, security policies, and network management.

Advanced FortiGate Firewall
(February 2025, Thailand)
- In-depth workshop on advanced FortiGate configurations, security features, and enterprise network protection.

The Course in Mobile Data Collection & Visualization

(May 2024, Lao PDR)
- Focused on data collection methodologies and visualization techniques for improved decision-making.
Backup & Disaster Recovery Solutions
